### DETAILED ACTION

1. Applicant's Preliminary Amendment filed 6/18/01 (Paper No: 5) is acknowledged.
2. Claims 7-12 are pending.

#### ***Restriction***

3. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted:

- I. Claims 7-12, drawn to a method for the treatment of focal cerebral ischemic infarction by administering a neutralizing antibody or derivative thereof.
  - II. Claims 7-12, drawn to method for the treatment of focal cerebral ischemic infarction by administering plasmin.
  - III. Claims 7-12, drawn to method for the treatment of focal cerebral ischemic infarction by administering mini-plasmin.
  - IV. Claims 7-12, drawn to method for the treatment of focal cerebral ischemic infarction by administering micro-plasmin.
4. The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

Methods of treating focal cerebral ischemic infarction that utilize different products: neutralizing antibodies or derivatives thereof; plasmin, mini-plasmin, or micro-plasmin are patentably distinct. Antibodies, plasmin, mini-plasmin (lacks the first four kringle domains), and micro-plasmin (lacks all five kringle domains) differ with respect to their structure, a person of ordinary skill in the art would not envision one in view of the other. In addition, they differ in mode of action. Therefore, the inventions as grouped are patentably distinct.

Since Applicant's Inventions do not contribute a special technical feature when viewed over the prior art they do not have a single general inventive concept and so lack unity of invention.

Art Unit: 1644

5. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed.

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Megan Jamroz, whose telephone number is (703) 308-8365. The examiner can normally be reached Monday to Friday, 8:00 to 4:30. A message may be left on the examiner's voice mail service.
